

Moreover, the institutions authorized to deal in foreign exchange shall provide the Argentine Central Bank, at the end of each business day and two business days in advance, with information on outflows transactions through the FX Market in daily amounts equal to or in excess to the equivalent of U.S.\$ 10,000 (ten thousand U.S. Dollars). Clients shall inform financial entities sufficiently in advance so that they can comply with the requirements under this reporting regime and, accordingly, to the extent any further requirements set forth in the exchange regulations are simultaneously satisfied, they may process the exchange transactions.

Foreign Exchange Criminal Regime

Foreign exchange regulations are characterized as “public policy” rules in Argentina. Failure to comply with such provisions could result in penalties pursuant to Foreign Exchange Criminal Law No. 19,359.

Notwithstanding the above-mentioned measures adopted by the current administration, the Central Bank and the federal government in the future may impose additional exchange controls that may further impact our ability to transfer funds abroad and may prevent or delay payments that our Argentine subsidiaries are required to make outside Argentina.

E. Taxation

Material Argentine tax considerations relating to our Class B shares and ADSS

The following discussion is a summary of the material Argentine tax considerations relating to the purchase, ownership and disposition of our Class B shares or ADSS. The following summary is based upon tax laws of Argentina as in effect on the date of this document and is subject to any change in Argentine law that may come into effect after such date any change could apply retroactively and could affect the continued validity of this summary. On December 6, 2019, Decree No. 824/2019 was published in the Official Gazette, which approves a new ordered text of the Income Tax Law. On December 9, 2019, Decree No.862/2019 was published in the Official Gazette, which approves a new ordered text of the regulatory decree of the Income Tax Law, with certain modifications. On December 23, 2019, Law No. 27,541 was published in the Official Gazette, which introduced several modifications to the Argentine tax regime, such as the income tax applicable to income obtained by Argentine resident individuals and undivided estates located in Argentina derived from financial operations, among other aspects.

This law has been regulated by the Decree No.99/2019 (published in the Official Gazette on December 28, 2019), General Resolution (AFIP) No.4659/2020 (published in the Official Gazette on January 7, 2020), General Resolution (AFIP) No.4664/2020 (published in the Official Gazette on January 15, 2020), Decree No. 116/2020 (published in the Official Gazette on January 30, 2020), General Resolution (AFIP) No. 4667/2020 (published in the Official Gazette on January 31, 2020), General Resolution (AFIP) No. 4673/2020 (published in the Official Gazette on February 7, 2020), General Resolution (AFIP) No. 4690/2020 (published in the Official Gazette on April 1, 2020), Decree No. 330/2020 (published in the Official Gazette on April 1, 2020), General Resolution (AFIP) No. 4691/2020 (published in the Official Gazette on April 2, 2020), General Resolution (AFIP) No. 4815/2020 (published in the Official Gazette on September 16, 2020), General Resolution (AFIP) No. 4816/2020 (published in the Official Gazette on September 16, 2020), General Resolution (AFIP) No. 4850/2020 (published in the Official Gazette on November 6, 2020), General Resolution (AFIP) No. 4855/2020 (published in the Official Gazette on November 10, 2020), General Resolution (AFIP) No. 4873/2020 (published in the Official Gazette on December 4, 2020), General Resolution (AFIP) No. 5123/2021 (published in the Official Gazette on December 27, 2021), among others. On August 26, 2020, on October 31, 2020 and on December 1, 2020, Law No. 27,562 and Decrees No. 833/2020 and 966/2020, were published in the Official Gazette, respectively, which extended the scope and validity of the moratorium established in Law No. 27,541.

Additionally, on June 16, 2021 and on August 4, 2021, Laws No. 27,630 and 27,638 were published in the Official Gazette, respectively, which also introduce modifications to the Income Tax Law. General Resolution (AFIP) No. 5060 (published in the Official Gazette on August 30, 2021) regulated *inter alia*, the Income Tax withholding rates applicable to dividends and profits pursuant to the modifications introduced by Law No.27,630 to the Income Tax Law. In addition, Decree No. 621/2021 (published in the Official Gazette on September 23, 2021) regulates the modifications introduced by Law No. 27,638 to the Income Tax Law and Personal Assets Tax Law. General Resolution (CNV) No. 917 (published in the Official Gazette on January 3, 2021) regulates the application of Law No. 27,638 and Decree No. 621/2021, establishing, among other issues, a list of instruments issued in national currency that are within the scope of the tax exemptions foreseen in Law No. 27,638. In relation to the Personal Assets Tax Law No. 27,667 (published in the Official Gazette on December 31, 2021) introduces modifications to said law, which are regulated by Decree No. 912/2021 (published in the Official Gazette on December 31, 2021)

This summary includes the modifications under the mentioned regulations, nevertheless, please note it does not include all of the tax considerations that may be relevant to you or your situation, particularly if you are subject to special tax rules.

This summary does not purport to be a comprehensive description of all the Argentine tax considerations that may be relevant to a holder of such securities. No assurance can be given that the courts or tax authorities responsible for the administration of the laws and regulations described in this report will agree with this interpretation. In this regard, it is important to highlight that, notwithstanding the issuance of the above mentioned regulations, it is expected that more regulations and explanations would be issued shortly, since to date it is not possible to determine how the recent modifications incorporated to the Argentine tax regime will be applied and/or construed by the tax authorities of Argentina. Holders are encouraged to consult their tax advisors regarding the tax treatment of our ADSs or common shares as it relates to their particular situation.

Income Tax

Taxation on Dividends

According to the amendments introduced to the Income Tax Law by virtue of the aforementioned regulations, the taxation applicable on the distribution of dividends from Argentine Companies would be as follows:

(i) Dividends originated in profits obtained during fiscal years initiated after January 1, 2018 and up to December 31, 2020: dividends on Argentine shares paid to Argentine resident individuals and/or non-Argentine residents would be subject to a 7% income tax withholding on the amount of such dividends ("Dividend Tax") (please note that according to Section 48 of Law N° 27,541, the application of the corporate 25% rate was suspended for one tax period; thus the 7% rate would also apply for dividend distributions involving profits obtained during fiscal years initiated after January 1, 2018 and up to December 31, 2020). However, if dividends are distributed to Argentine Entities (in general, entities organized or incorporated under Argentine law, certain traders and intermediaries, local branches of non-Argentine entities, sole proprietorships and individuals carrying on certain commercial activities in Argentina), no Dividend Tax should apply. Equalization Tax is not applicable.

Argentine individuals and undivided estates located in Argentina are not allowed to offset income arising from the distribution of dividends on Argentine shares with other losses arisen in other type of operations.

(ii) Dividends originated in profits obtained during fiscal years initiated after January 1, 2021 onward: Due to the amendments introduced by Law No. 27,630, dividends on Argentine shares paid to Argentine individuals and non-Argentine residents would be subject to a 13% income tax withholding on the amount of such dividends. However, if dividends are distributed to Argentine Entities, no Dividend Tax should apply. Equalization Tax is not applicable.

(iii) Dividends originated in profits obtained during tax periods before those contemplated above: no Argentine income tax withholding would apply on dividends distribution except for the application of the "Equalization Tax" (as defined below).

The equalization tax (the "Equalization Tax") is applicable when the dividends distributed are higher than the "net accumulated taxable income" of the immediate previous fiscal period from when the distribution is made. In order to assess the "net accumulated taxable income" from the income calculated by the Income Tax Law, the income tax paid in the same fiscal period should be subtracted and the local dividends received in the previous fiscal period should be added to such income. The Equalization Tax would be imposed as a 35% withholding tax on the shareholder receiving the dividend. Dividend distributions made in property (other than cash) would be subject to the same tax rules as cash dividends. Stock dividends on fully paid shares ("acciones liberadas") are not subject to Equalization Tax.

For Argentine individuals and undivided estates not registered before the Argentine tax authorities as taxpayers for income tax purposes as well as for non-Argentine residents, the Dividend Tax withholding will be considered a final payment. Argentine individuals and undivided estates are not allowed to offset income arising from the distribution of dividends on Argentine shares with losses from other types of operations.

The Income Tax Law provides a first in-first out rule pursuant to which distributed dividends correspond to the former accumulated profits of the distributing company.

Holders are encouraged to consult a tax advisor as to the particular Argentine income tax consequences derived from profit distributions made on Class B shares and ADSs.

Capital gains tax

According to Income Tax regulations, the results derived from the transfer of shares, quotas and other equity interests, titles, bonds and other securities, are subject to Argentine income tax (unless an exemption applies), regardless of the type of beneficiary who realizes the gain.

Capital gains obtained by Argentine corporate entities (in general, entities organized or incorporated under Argentine law, certain traders and intermediaries, local branches of non-Argentine entities, sole proprietorships and individuals carrying on certain commercial activities in Argentina, among others) derived from the sale, exchange or other disposition of shares in Argentine entities are subject to income tax on the net income at the rate of 30% for fiscal years initiated after January 1, 2018 and up to December 31, 2020. As from fiscal periods initiated from January 1, 2021, the corporate income tax rate was amended, establishing a progressive tax rate system (rates from 25% to 35% depending on the net accumulated taxable income). The current progressive rates apply as indicated below:

Accumulated net taxable income		On the amount exceeding	
More than ARS	To ARS	Shall pay ARS	Plus %
ARS 0	ARS 14,301,209.21	ARS 0	25%
ARS 14,301,209.21	ARS 143,012,092.08	ARS 3,575,302.30	30%
ARS 143,012,092.08	Onwards	ARS 42,188,567.16	35%

The amounts stated in the chart above will be annually updated since January 1, 2022 based on an inflation index.

Losses arising from the sale of shares can only be offset against income derived from the same type and source of operations, for a five-year carryover period. Starting in 2018, income obtained by Argentine resident individuals and undivided estates located in Argentina from the sale of shares and other securities are exempt from capital gains tax in the following cases: (i) when the shares are placed through a public offering authorized by the CNV; and/or (ii) when the shares are traded in stock markets authorized by the CNV, under segments that ensure priority of price-time and interference of offers; and/or (iii) when the sale, exchange or other disposition of shares is made through a tender offer regime and/or exchange of shares authorized by the CNV. In addition, Section 34 of Law N° 27,541, provides that since tax period 2020, in the case of securities under the provisions of Section 98 of the Income Tax Law, not included in the first paragraph of Section 26 subsection u) of the Income Tax Law, Argentine resident individuals and undivided estates located in Argentina are exempt from capital gains tax derived from their sale, exchange, or disposal to the extent said securities are listed on stock exchanges or securities markets authorized by the CNV, without being applicable the provisions of Section 109 of the Income Tax Law. In this sense, Section 109 of the Income Tax Law provides that the total or partial exemptions established or that will be established in the future by special laws regarding securities, issued by the National, Provincial, or Municipal States or the City of Buenos Aires, will not have effects on income tax for Argentine resident individuals and undivided estates located in Argentina. ADSS would not qualify for the exemption applicable to Argentine resident individuals since the referred conditions would not apply. If the exemption does not apply, the income derived by Argentine resident individuals and undivided estates located in Argentina from the sale, exchange or other disposition of ADSS (and shares, if applicable) is subject to income capital gains tax at a 15% rate on net income (calculated in Argentine currency). The acquisition cost may be updated pursuant to the IPC inflationary index rate to the extent the equity participation was acquired after January 1, 2018. Losses arising from the sale of non-exempt Argentine shares can only be offset by Argentine individuals and undivided estates located in Argentina against income derived from operations of the same source and type (understanding by "type" the different concepts of income included under each article of Chapter II, Title IV of the Income Tax Law), for a five-year carryover period.

If Argentine resident individuals and undivided estates located in Argentina perform a conversion procedure of securities representing shares, that do not meet the exemption requirements stated in the conditions mentioned in points (i), (ii) and (iii) of the paragraph above, to hold instead the underlying shares that do comply with said requirements, such conversion would be considered a taxable transfer of the securities representing shares for which the fair market value by the time the conversion takes place should be considered. The same tax treatment will apply if the conversion process involves shares that do not meet the exemption requirements stated above that are converted into securities representing shares to which the exemption is applicable. Once the underlying shares or securities representing shares are converted, the results obtained from the sale, exchange, swap or any other disposition thereof would be exempt from income tax provided that the conditions mentioned in points (i), (ii) and (iii) of the paragraph above are met. Pursuant to amendments introduced by Law N° 27,541, it could also be construed that a capital gains exemption could also apply for Argentine resident individuals and undivided estates located in Argentina if the securities involved are listed on stock exchanges or securities markets authorized by the CNV (although the matter is not free from doubt and further clarifications should be issued). Due to the

amendments introduced to the Income Tax Law, as from 2018, non-Argentine resident individuals or legal entities ("Foreign Beneficiaries") are also exempt from income tax derived from the sale of Argentine shares in the following cases: (i) when the shares are placed through a public offering authorized by the CNV; and/or (ii) when the shares are traded in stock markets authorized by the CNV, under segments that ensure priority of price-time and interference of offers; and/or (iii) when the sale, exchange or other disposition of shares is made through a tender offer regime and/or exchange of shares authorized by the CNV. The exemption applies to the extent the Foreign Beneficiaries reside in a "cooperative jurisdiction" and, in accordance with Section 90 of the regulatory decree of the Income Tax Law, if their funds come from "cooperative jurisdictions" (as defined below).

In addition, Law No. 27,430 stated that income derived from the sale of ADSs gives rise to Argentine source income. However, capital gains obtained from the sale, exchange or other disposition of ADSs by Foreign Beneficiaries that reside in a cooperative jurisdiction and, in accordance with Section 90 of the regulatory decree of the Income Tax Law, their funds come from cooperative jurisdictions, are exempt from income tax on capital gains derived from the sale of ADSs to the extent the underlying shares are authorized for public offering by the CNV.

In case Foreign Beneficiaries conduct a conversion process of shares that do not meet the exemption requirements, into securities representing shares that are exempt from income tax pursuant to the conditions stated above, such conversion would be considered a taxable transfer for which the fair market value by the time the conversion takes place should be considered.

In case the exemption is not applicable and the Foreign Beneficiaries are resident in a cooperative jurisdiction and their funds were channeled through cooperative jurisdictions, the gain derived from the disposition of ADSs would be subject to Argentine income tax at a 15% rate on the net capital gain or at a 13.5% effective rate on the gross price.

For Foreign Beneficiaries resident in or whose funds come from jurisdictions considered as non-cooperative for purposes of fiscal transparency, the tax rate applicable to the sales of shares and/or ADSs is assessed at 35%. Pursuant to General Resolution (AFIP) No.4227/2018, the presumed net basis on which the 35% rate should apply in the case of sale or disposition of securities is assessed at 90%. Such General Resolution also provides different payment mechanisms depending on the specific circumstances of the sale transaction. Pursuant to Section 252 of the regulatory decree of the Income Tax Law, in the cases included in the last paragraph of Section 98 of the Income Tax Law, (i.e. when the acquirer and the seller of the security involved are non-Argentine residents), the tax shall be paid by the foreign seller directly through the mechanism established for such purpose by the tax authorities, or (i) through an Argentine individual resident with sufficient mandate or (ii) by the foreign seller's legal representative domiciled in Argentina.

As a result of the enactment of Law N° 27,541, certain clarifications and definitions are still pending and expected to be issued shortly.

Holders are encouraged to consult a tax advisor as to the particular Argentine income tax consequences derived from holding and disposing of Class B shares and ADSs and whether any different treatment under a treaty to avoid double taxation could apply.

Tax treaties

Argentina has signed tax treaties for the avoidance of double taxation with Australia, Belgium, Bolivia, Brazil, Canada, Chile, Denmark, Finland, France, Germany, Italy, Mexico, the Netherlands, Norway, Qatar, Russia, Spain, Sweden, Switzerland, the UK, and Uruguay. The treaties signed with China, Luxembourg, Turkey, Austria and Japan are still undergoing the respective ratification procedures. There is currently no tax treaty for the avoidance of double taxation in effect between Argentina and the United States. Holders are encouraged to consult a tax advisor as to the potential application of the provisions of a treaty in their specific circumstances.

Personal assets tax

Argentine entities have to pay the personal assets tax corresponding to Argentine and foreign resident individuals and foreign resident entities for the holding of company shares by December 31 of each year. Law N° 27,541 (published in the Official Gazette on December 23, 2019) changed the "domicile" criterion for the "residence" criterion as stipulated under income tax rules. Also, according to Section 13 of the Decree No. 99/2019 any reference to "domicile" criterion in relation to the personal assets tax should be understood as referring to "residence". For tax period 2019, inclusive, and onwards the applicable tax rate is 0.50% and is levied on the proportional net worth value ("valor patrimonial proporcional") by December 31st of each year, of the shares arising from the last balance sheet. Pursuant to the Personal Assets Tax Law, the Argentine company is entitled to seek reimbursement of such paid tax from the applicable Argentine resident individuals and/or foreign resident shareholders. The Argentine company may seek this reimbursement of Personal Assets Tax by setting off the applicable tax against any amount due to its shareholders or in any other way or, under certain circumstances, waive its right under Argentine law to seek reimbursement from the shareholders.

Holders are encouraged to consult a tax advisor as to the particular Argentine personal assets tax consequences derived from the holding of Class B shares and ADSs.

Value added tax

The sale, exchange or other disposition of our Class B shares or ADSs and the distribution of dividends are exempted from the value added tax.

Tax on debits and credits on Argentine bank accounts

All credits and debits originated in bank accounts held at Argentine financial institutions, as well as certain cash payments, are subject to this tax, which is assessed at a general rate of 0.6%. There are also increased rates of 1.2% and reduced rates of 0.075%. According to Section 45 of Law N° 27,541, the applicable rate of tax on debits and credits on Argentine bank accounts (the "TDC") is doubled for certain cash withdrawals made by certain Argentine legal entities. Owners of bank accounts subject to the general 0.6% rate may consider 33% of the tax paid as a tax credit against specific taxes. The taxpayers that are subject to the 1.2% rate may consider 33% of all tax paid as a credit against specific taxes. Such amounts can be utilized as a credit for income tax or for the special contributions on cooperatives capital. The remaining amount is deductible for income tax purposes. If lower rates were applied, the available credit would be reduced to 20%. Additionally, Law No. 27,264 establishes that the 100% of the tax paid may be considered as credit against income tax by entities that are characterized as "micro" and "small" and a 60% of the tax paid by those entities related to the manufacturing industry that are characterized as "medium- stage 1-" by means of section 1 of Law No. 25,300 and its complementary ones.

TDC has certain exemptions. Debits and credits in special checking accounts (created under Communication "A" 3250 of the Argentine Central Bank) are exempted from this tax if the accounts are held by foreign legal entities and if they are exclusively used for financial investments in Argentina. For certain exemptions and/or tax rate reductions to apply, bank accounts must be registered with the Tax Authority (AFIP-DGI) in accordance with General Resolution (AFIP) No.3900/2016.

Pursuant to Law No. 27,432 (published in the Official Gazette on December 29, 2017), the TDC shall apply until December 31, 2022, inclusive. Whenever financial institutions governed by Law No. 21,526 make payments acting in their own name and behalf, the application of this tax is restricted to certain specific transactions. Such specific transactions include, among others, dividends or profits distributions.

It is noted that according to Decree No. 796/2021, the TDC exemptions foreseen in Decree No. 380/2001 and other regulations of the same nature shall not be applicable in those cases where cash payments are related to the purchase, sale, exchange, intermediation and/or any other type of operation on crypto assets, cryptocurrencies, digital currencies or similar instruments, in the terms defined by the applicable rules.

By means of Law 27.702 (B.O. 11/30/2022), those taxes whose validity expired on 12/31/2022 were extended until 12/31/2027: Income Tax, Personal assets tax and TDC

Whenever financial institutions governed by Law No. 21,526 make payments acting in their own name and behalf, the application of this tax is restricted to certain specific transactions. Such specific transactions include, among others, dividends or profits distributions.

Tax on minimum presumed income

Pursuant to Law No. 27,260, passed by the Argentine Congress on June 29, 2016, the tax on minimum presumed income was eliminated for tax periods beginning as of January 1, 2019.

PAIS Tax ("Impuesto para una Argentina inclusiva y solidaria")

Law N° 27,541 establishes, on an emergency basis and for the term of five fiscal periods from the entry into force of said law (i.e. December 23,2019), a federal tax applicable to certain transactions for the purchase of foreign currency for saving purposes or without

a specific destination and other operations of currency exchange and acquisition of services performed by Argentine tax residents (individuals, undivided estates, legal entities, among others). The applicable rate is, in general, 30%.

Investors should consider the provisions that apply to them according to their specific case.

In addition, General Resolution (AFIP) N° 4815/2020 established on the operations subject to PAIS Tax and for the taxpayers defined in Article 36 of Law N° 27,541 that qualify as Argentine residents, in the terms of Article 116 and subsequent of the Income Tax Law, the application of a thirty-five percent (35%) income tax collection on the amounts in Ps. that, for each case, are detailed in Article 39 of the Law 27,541.

Said collection will have the character of payment on account and will be computable in the annual income tax return or, where appropriate, the annual personal assets tax return, corresponding to the fiscal period in which they were incurred.

Additionally, this general resolution establishes a refund regime for those persons or entities to whom the established collection has been applied and who are not taxpayers of income tax or, where appropriate, personal assets tax.

Gross turnover tax

This tax is a provincial tax, which is also levied in the City of Buenos Aires, applicable to gross revenues resulting from the regular and onerous exercise of commerce, industry, profession, business, services or any other onerous activity conducted on a regular basis within the respective Argentine jurisdiction. Each of the provinces and the City of Buenos Aires apply different tax rates depending on the type of activity.

In addition, gross turnover tax could be applicable on the transfer of Class B shares or ADSs and on the perception of dividends to the extent, such activity is conducted on a regular basis within an Argentine province or within the City of Buenos Aires. However, under the Tax Code of the City of Buenos Aires, any transaction with shares as well as the perception of dividends are exempt from gross turnover tax.

In accordance with the stipulations of the Fiscal Consensus entered into by and amongst the Argentine Executive Branch, the representatives of the Provinces and the City of Buenos Aires on November 16, 2017 and approved by the Argentine Congress on December 21, 2017 (the so-called "Fiscal Consensus" and/or the "Consensus"), local jurisdictions took on certain commitments in connection with certain taxes that are within their powers. The Consensus shall be effective only in connection with the jurisdictions that have their legislative branches approve the Consensus and such effectiveness shall not commence if such approval has not been granted. When it comes to the impact of the Consensus on gross turnover tax, the Argentine provinces and the City of Buenos Aires agreed to grant exemptions and impose maximum tax rates on certain businesses and for certain periods.

However, it is important to point out that later, the Argentine Executive Branch, the representatives of the Provinces and the City of Buenos Aires signed three agreements to suspend the Fiscal Consensus. Recently, Fiscal Consensus 2021 was signed between the Argentine Executive Branch and the representatives of the Provinces -except for the City of Buenos Aires- (the "Fiscal Consensus 2021") in which it was agreed to suspend all the commitments made the parties by means of the previous Fiscal Consensus 2017, 2018, 2019 and 2020, maintaining only its enforcement those that have been complied with at the date of signing of the Fiscal Consensus 2021. These agreements shall be effective only in connection with the jurisdictions that have their legislative branches approve them and such effectiveness shall not commence if such approval has not been granted.

Holders of Class B shares and ADSs are encouraged to consult a tax advisor as to the particular gross turnover tax consequences of holding and disposing of Class B shares and ADSs in the involved jurisdictions.

Regimes for the Collection of Provincial Tax Revenues on the Amounts Credited to Bank Accounts

Different tax authorities (i.e., City of Buenos Aires, Corrientes, Córdoba, Tucumán, Province of Buenos Aires and Salta, among others) have established collection regimes for gross turnover tax purposes applicable to those credits verified in accounts opened at financial entities, of any type and/or nature and including all branch offices, irrespective of territorial location. These regimes apply to those taxpayers included in the lists provided monthly by the tax authorities of each jurisdiction. The applicable rates may vary depending on the jurisdiction involved. Collections made under these regimes shall be considered as a payment on account of the gross turnover tax. Note that certain jurisdictions have excluded the application of these regimes on certain financial transactions.

By means of Fiscal Consensus 2021, the parties assumed the commitment to take the necessary measures according to the procedures established in each jurisdiction with the aim to apply any Turnover Tax automatic refund or compensation mechanism for those taxpayers (either local or subject to the Multilateral Convention rules) that have outstanding balances in their favor generated by withholdings, collections and/or similar ones, to the extent certain specific requirements are met in each case.

Holders of Class B shares and ADSs shall corroborate the existence of any exclusions to these regimes in accordance with the jurisdiction involved.

Stamp tax

Stamp tax is a provincial tax, which is also levied in the City of Buenos Aires, applicable to the execution of onerous transactions within an Argentine provincial jurisdiction or the City of Buenos Aires or outside an Argentine provincial jurisdiction or the City of Buenos Aires but with effects in such jurisdiction.

In the City of Buenos Aires, acts or instruments related to the negotiation of shares and other securities duly authorized for its public offering by the CNV are exempt from stamp tax to the extent their placement is made within a 180-days term counting as from such authorization is granted.

Regarding the Fiscal Consensus, almost all the provinces in Argentina and the City of Buenos Aires have committed to establish for the stamp tax a maximum tax rate of 0.75% as from January 1, 2019, 0.5% as from January 1, 2020, 0.25% as from January 1, 2021 and abrogate the stamp tax starting from January 1, 2022. However, such commitment was delayed by one calendar year pursuant Law No 27,469 "Fiscal Consensus 2018" (published in the Official Gazette on December 4, 2018). Fiscal Consensus 2018 shall be effective only in connection with the jurisdictions that have their legislative branches approve it and such effectiveness shall not commence if such approval has not been granted. However, later the Argentine Executive Branch, the representatives of the Provinces and the City of Buenos Aires signed Fiscal Consensus 2019 and 2020 to suspend the Fiscal Consensus 2017 and the Fiscal Consensus 2018. Recently, Fiscal Consensus 2021 was signed between Argentine Executive Branch and the representatives of the Provinces -except for the City of Buenos Aires- in which it was agreed to suspend all the commitments made the parties by means of the previous Fiscal Consensus 2017, 2018, 2019 and 2020, maintaining only its enforcement those that have been complied with at the date of signing the Fiscal Consensus 2021. These agreements shall be effective only in connection with the jurisdictions that have their legislative branches approve them and such effectiveness shall not commence if such approval has not been granted.

Holders of Class B shares and ADSs are encouraged to consult a tax advisor as to the particular stamp tax consequences arising in the involved jurisdictions.

Prospective investors should consider the tax consequences in force in the above mentioned jurisdictions at the time the concerned document is executed and/or becomes effective.

Other taxes

There are no federal inheritance or succession taxes applicable to the ownership, transfer or disposition of our Class B shares or ADSs. However, it is noted that pursuant to the Fiscal Consensus 2021 signed between Argentine Executive Branch and the representatives of the Provinces - except for the City of Buenos Aires - by means of which the parties assumed the commitment to legislate during 2022 a tax applicable on any increase in wealth obtained as a result of any free transmission or act of such nature, which includes assets located in their territory and/or that benefits individuals or legal entities domiciled in them. Increasing marginal rates would be applicable as the amount transferred increases in order to grant progressiveness to the tax, reaching all transmissions that imply a patrimonial enrichment for free, including, but not limited to, inheritances, donations, legacies and inheritance advances. At the provincial level, the province of Buenos Aires imposes a tax on free transmission of assets, including inheritance, legacies, donations, etc. For tax period 2022, any gratuitous transfer of property lower than or equal to Ps.468,060 is exempt. This amount is increased to Ps.1,948,000 in the case of transfers among parents, sons, daughters and spouses. The amount to be taxed, which includes a fixed component and a variable component that is based on differential rates (which range from 1.6026% to 9.5131%), varies according to the property value to be transferred and the degree of kinship of the parties involved. Free transmission of Class B shares or ADSs could be subject to this tax. Holders of Class B shares and ADSs are encouraged to consult a tax advisor as to the particular tax consequences arising in the involved jurisdictions.

Court tax

In the event that it becomes necessary to institute enforcement proceedings in relation to our Class B shares and ADSs in the federal courts of Argentina or the courts sitting in the City of Buenos Aires, a court tax (currently at a rate of 3.0%) will be imposed on the amount of any claim brought before such courts. Certain court and other taxes could be imposed on the amount of any claim brought before the Province courts.

Incoming Funds Arising from Non-Cooperative or Low or Nil Tax Jurisdictions

According to Section 82 of the Law No. 27,430, for fiscal purposes, any reference to “low tax or no tax countries” or “non-cooperative countries” should be understood to be “non-cooperative jurisdictions or low or nil tax jurisdictions,” as defined in Section 19 and Section 20 of the Income Tax Law.

As defined under Section 19 of the Argentine Income Tax Law, non-cooperative jurisdictions are those countries or jurisdictions that do not have an agreement in force with the Argentine government for the exchange of information on tax matters or a treaty to avoid international double taxation with a broad clause for the exchange of information. Likewise, those countries that, having an agreement of this type in force, do not effectively comply with the exchange of information will also be considered as non-cooperative. The aforementioned treaties and agreements must comply with international standards of transparency and exchange of information on fiscal matters to which the Argentine Republic has committed. The Executive Branch published a list of the non-cooperative jurisdictions based on the criteria above. In this sense, according to Section 24 of the regulatory decree of the Income Tax Law, the following jurisdictions should be considered as “non-cooperative” under the disposition of Section 19 of the aforementioned law:

1. Bosnia and Herzegovina
2. Brecqhou
