

## TAXATION

### Indian Taxation

**General.** The following summary is based on the law and practice of the Income-tax Act, 1961, or Income-tax Act, including the special tax regime contained in Sections 115AC and 115ACA of the Income-tax Act read with the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through Depository Receipt Mechanism) Scheme, 1993, or the Scheme, as amended.

The Income-tax Act is amended every year by the Finance Act of the relevant year. Some or all of the tax consequences of Sections 115AC and 115ACA may be amended or changed by future amendments to the Income-tax Act.

We believe this information is materially complete as of the date hereof. However, these details are not intended to constitute a complete analysis of the individual tax consequences to non-resident holders or employees under Indian law for the acquisition, ownership and sale of ADSs and equity shares.

**EACH INVESTOR OR PROSPECTIVE INVESTOR SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISORS WITH RESPECT TO INDIAN AND LOCAL TAX CONSEQUENCES OF ACQUIRING, OWNING OR DISPOSING OF EQUITY SHARES OR ADSs.**

**Residence.** For purposes of the Income-tax Act, an individual is considered to be a resident of India during any fiscal year if he or she is in India in that year for a period or periods amounting to at least 182 days; or at least 60 days and, within the four preceding years has been in India for a period or periods amounting to at least 365 days.

The period of 60 days referred to above shall be read as 182 days (i) in case of a citizen of India who leaves India in a previous year for the purposes of employment outside of India or (ii) in the case of a citizen of India or a person of Indian origin living abroad who visits India.

Finance Act 2020 has amended the residence rule to provide that in case of Indian citizens or a person of Indian origin living abroad visiting India having total income, other than income from foreign source, exceeding Rs. 15 lakhs, the period of stay would be considered at 120 days as against 182 days as provided above. Further such person would be treated as Not Ordinarily Resident (NOR) if his stay in India is less than 182 days.

Further provided that an Indian Citizen would be deemed to be as Resident of India when such person has income other than income from foreign source, exceeding Rs. 15 lakhs during the previous year and if he/she is not liable to income tax in any other country or territory by reason of his domicile or residence or any other criteria of similar nature. Further such person who is deemed to be resident of India would be treated as NOR.

A Company is a resident of India if it is incorporated in India or the control and the management of its affairs is situated wholly in India. Individuals and companies that do not fulfill the above criteria would be treated as non-residents for purposes of the Income-tax Act. The Finance Act, 2015 has amended this definition and brought in the concept of Place of Effective Management (PoEM) i.e., a Company would be considered a resident in India if its place of effective management in that year is in India. Thus, a foreign company will be resident in India, if its PoEM in that year is in India. The term 'PoEM' has been explained to mean a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole, are in substance made. PoEM is an internationally recognized concept and accepted even by the OECD. The Finance Act 2016 has deferred the applicability of PoEM by one year and accordingly it shall be applicable from fiscal 2017 onwards. Further to the amended definition, the Ministry of Finance issued draft guidelines for determining PoEM of a company on December 23, 2015. CBDT via circular dated January 24, 2017 has come up with guiding principles to be followed to determine PoEM. Further, the CBDT has vide Notification No. 29/2018 dated June 22, 2018 specified the exceptions, modifications and adaptations to the provisions of the Income-tax Act relating to computation of total income, treatment of unabsorbed depreciation, set off or carry forward and set off of losses, collection and recovery and special provisions relating to avoidance of tax that shall apply to a foreign company

---

having POEM in India. This may increase the compliance of filing of returns and assessment of our subsidiary company situated outside India.

**Taxation of Distributions.** Up to March 31, 2020, dividend income was exempt from tax for shareholders, during the said period the effective rate of Dividend Distribution Tax (DDT) was payable by the Company at 20.5553%. Earlier the Finance Act 2017 has provided that any income earned by any resident except domestic companies or specified funds or trusts or institutions, by way of dividend declared, distributed or paid by any domestic company in excess of 1,000,000 in aggregate shall be chargeable to tax at the rate of 10% on gross basis on such amount exceeding 1,000,000.

The Finance Act 2020 has replaced the Dividend Distribution Tax (DDT) with the classical system of dividend taxation wherein dividend income will be taxed in the hands of the shareholders at their respective applicable tax rates. In the light of the above changes under the Income-tax Act, Company paying dividend to shareholders is required to do withholding of tax at the applicable rates prescribed under Income Tax Act read along Tax Treaty with respective countries (together with Multilateral Instruments (MLI) as applicable) subject to conditions specified under the Income Tax Act.

Further the Finance Act 2020 has restored the section 80M of Income Tax Act to prevent the cascading effect of imposition of tax on dividend on same profits, by providing that where a domestic company declares dividend, out of dividend received from another domestic or foreign company or business trust, it shall be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other domestic company or foreign company or business trust as does not exceed the amount of dividend distributed by it up to one month prior to the due date of filing Income Tax Return.

Further the Finance Act 2020 amended section 57 of Income Tax Act to provide that no deduction shall be allowed from dividend income, other than deduction on account of interest expense and in any previous year such deduction shall not exceed twenty percent of the dividend income included in the total income for that year without deduction under section 57 of Income Tax Act.

**Taxation of Employee Stock Options.** Through the Finance Act, 2009, Section 17 (2) of the Income Tax Act was amended to provide that any specified securities or sweat equity shares allotted or transferred, directly or indirectly, by a company free of cost or at concessional rate to its current or former employees are taxable in the hands of employees as a "perquisite". This treatment extends to all options granted under a company's stock option plan, where such option is exercised on or after April 1, 2009. The value of the perquisite is the fair market value, or FMV, of the specified security or share as on the date of exercise of the option by the employee as reduced by the amount actually paid by, or recovered from the employee in respect of such security or share. The value of the perquisite so computed is added to the income chargeable to tax in the hands of the employee under the head "salaries" and subject to tax at the rate applicable to the individual employee. Securities or sweat equity shares allotted or transferred by a company free of cost or at concessional rate to its employees were earlier subject to a fringe benefit tax, which now stands abolished.

**Taxation of Capital Gains.** The following is a brief summary of capital gains taxation of non-resident holders and resident employees relating to the sale of ADSs and equity shares received upon conversion of ADSs. The relevant provisions are contained mainly in sections 2(42A), 45, 47(via), 47(x), 49(2ABB), 115AC and 115ACA, of the Income-tax Act, in conjunction with the Scheme.

Effective April 1, 2001, the Finance Act, 2001 introduced a new section 115AC in place of the prevailing section 115AC of the Income-tax Act. You should consult your own tax advisor concerning the tax consequences of your particular situation.

Shares (including shares issuable on the conversion of the ADSs) held by the non-resident investor for a period of more than 12 months is treated as long term capital assets. If the shares are held for a period of less than 12 months from the date of conversion, the same is treated as short term capital asset.

---

Capital gains are taxed as follows:

- As per the applicable scheme, gains from a sale of ADSs outside India by a non-resident to another non-resident are not taxable in India;
- Long-term capital gains realized by a resident from the transfer of the ADSs will be subject to tax at the rate of 10% as increased by the applicable surcharge and education cess; short-term capital gains on such a transfer will be taxed at graduated rates with a maximum of 30%, as increased by the applicable surcharge and education cess;
- Long-term capital gains realized by a non-resident upon the sale of equity shares obtained from the conversion of ADSs are subject to tax at a rate of 10% as increased by the applicable surcharge and education cess; and short-term capital gains on such a transfer will be taxed at the rate of tax applicable to the seller;
- Long Term Capital Gain arising from sale of equity shares in a company (or a unit of an equity-oriented fund or a unit of a business trust) on or after October 1, 2004 and on which STT is paid at the time of sale, was earlier exempt from Tax. The Finance Act 2017 had amended the Income Tax Act to provide that the Long-term capital gains realized by any person upon the sale of equity shares in a company is exempt from tax only if the sale of such shares is made on a recognized stock exchange and Securities Transaction Tax, or STT (described below) is paid both at the time of purchase and sale of such shares, or such acquisition has been notified by the central government. The Finance Act, 2018 has amended the Income Tax Act to provide that Long Term Capital Gain exceeding 100,000 arising from sale of equity shares in a company or a unit of an equity oriented fund or a unit of a business trust will be taxable at a rate of 10%, subject to satisfaction of certain conditions and will not get the benefit of indexation. Thus, any transfer carried out after 1 April 2018, would result in Long Term Capital Gains in excess of 100,000 and will attract tax at the rate of 10 percent. Further if investments are made on or before January 31, 2018, a method of determining the Cost of Acquisition (COA) of such investments has been specifically laid down. The COA of such investments shall be deemed to be the higher of-
  1. The actual COA of such investments; and
  2. The lower of-
    - o Fair Market Value ('FMV') of such investments as on January 31, 2018; and
    - o the Full Value of Consideration received or accruing as a result of the transfer of the capital asset i.e. the Sale Price.

With respect to assets listed as on January 31, 2018, the FMV would be the highest price quoted on the recognized stock exchange on January 31, 2018. In case there is no trading of the said asset in such stock exchange, the highest price on a day immediately preceding January 31, 2018 shall be considered to be the FMV; and

- Any short-term capital gain is taxed at 15% excluding the applicable surcharge and education cess, if the sale of such equity shares is settled on a recognized stock exchange and STT is paid on such sale.
-

As per the Finance Act, 2015, the rate of surcharge for domestic companies having total taxable income exceeding 10,000,000 but not exceeding 100,000,000 is 7% and in the case of domestic companies whose total taxable income is greater than 100,000,000, the applicable surcharge is 12%. For foreign companies, the rate of surcharge is 2% if the total taxable income exceeds 10,000,000 but does not exceed 100,000,000 and it is 5% if the total taxable income of the foreign company exceeds 100,000,000. The taxes and applicable surcharge will be increased by incremental levy known as 'Health and Education cess' at 4%. Since October 1, 2004, with respect to a sale and purchase of equity shares entered into on a recognized stock exchange, (i) both the buyer and seller are required to pay a Securities Transaction Tax (STT) at the rate of 0.1% of the transaction value of the securities, if the transaction is a delivery based transaction, i.e. the transaction involves actual delivery or transfer of shares; (ii) the seller of the shares is required to pay a STT at the rate of 0.025% of the transaction value of the securities if the transaction is a non-delivery based transaction, i.e. a transaction settled without taking delivery of the shares. STT is leviable with respect to a sale and purchase of a derivative and the rates of STT as substituted by Finance Act, 2008 effective June 1, 2008 is as follows: (i) in case of sale of an option in securities, the seller is required to pay an STT at the rate of 0.05% of the option premium; (ii) in case of a sale of an option in securities, where the option is exercised, the buyer is required to pay a STT at the rate of 0.125% of the settlement price; and (iii) in case of sale of futures in securities, the seller is required to pay STT at 0.01% on transaction value.

Any resulting taxes on capital gains arising out of such transaction may be offset by the applicable credit mechanism allowed under double tax avoidance agreements. The capital gains tax is computed by applying the appropriate tax rates to the difference between the sale price and the purchase price of the ADSs or equity shares. Under the Scheme, the purchase price of equity shares in an Indian listed company received in exchange for ADSs will be the market price of the underlying shares on the date that the Depository gives notice to the custodian of the delivery of the equity shares in exchange for the corresponding ADSs, or the "stepped up" basis purchase price. The market price will be the price of the equity shares prevailing on the BSE or the NSE, as applicable.

There is no corresponding provision under the Income-tax Act in relation to the "stepped up" basis for the purchase price of equity shares. However, to the best of our knowledge, the tax department in India has not denied this benefit. In the event that the tax department denies this benefit, the original purchase price of ADSs would be considered the purchase price for computing the capital gains tax.

According to the Scheme, a non-resident holder's holding period for the purposes of determining the applicable Indian capital gains tax rate relating to equity shares received in exchange for ADSs commences on the date of the notice of the redemption by the Depository to the custodian. However, the Scheme does not address this issue in the case of resident employees, and it is therefore unclear when the holding period for the purposes of determining capital gains tax commences for such a resident employee.

The Finance Act, 2017 has also introduced section 56(2)(x) in the Indian Income Tax Act to include that following shall be chargeable to Income tax as "Income from other sources":

Where any person receives, in any previous year, from any person or persons on or after the first day of April, 2017, amongst others, any shares or securities without consideration, the fair market value of which exceeds fifty thousand rupees, the whole of the fair market value of such shares or securities or for a consideration which is less than the fair market value of the shares or securities by an amount exceeding fifty thousand rupees, the fair market value of such shares or securities as exceeds such consideration. For this purpose, the fair market value is required to be computed as per prescribed taxation rules. Further, this provision is subject to certain specified exemptions, as an example, receipt of shares or securities from specified relatives, or pursuant to tax neutral mergers and demergers. It is unclear whether capital gains derived from the sale of subscription rights or other rights by a non-resident holder not entitled to an exemption under a tax treaty will be subject to Indian capital gains tax. If such subscription rights or other rights are deemed by the Indian tax authorities to be situated within India, the gains realized on the sale of such subscription rights or other rights will be subject to Indian taxation. The capital gains realized on the sale of such subscription rights or other rights, which will generally be in the nature of short-term capital gains, will be subject to tax at

- a maximum rate of 40% as increased by the applicable surcharge and education cess, in case of a foreign company, and
  - a maximum rate of 30% as increased by the applicable surcharge and education cess, in case of resident employees, and non-resident individuals with taxable income over 1,000,000.
-

**Withholding Tax on Capital Gains.** Any taxable gain realized by a non-resident on the sale of ADSs or equity shares is to be withheld at the source by the buyer. According to section 196C of the Income Tax Act (“the Act”), where any income by way of interest or dividends in respect of bonds or global depository receipts referred to in section 115AC of the Act or by way of long-term capital gains arising from the transfer of such bonds or global depository receipts is payable to a non-resident, the person responsible for making the payment shall, at the time of credit of such income to the account of the payee or at the time of payment thereof in cash or by the issue of a check or draft or by any other mode, whichever is earlier, deduct income tax thereon at the rate of ten per cent subject to any concession rate of tax provided as per Tax Treaty of respective countries read along with applicable Multilateral Instruments (MLI). The concessional tax rate benefit as per Tax Treaty would be available subject to providing various Tax forms including Tax Residency certificate by non-resident shareholders. However, as per the provisions of Section 196D (2) of the Income Tax Act, no withholding tax is required to be deducted from any income by way of capital gains arising to Foreign Institutional Investors (FIIs) as defined in Section 115AD of the Income Tax Act on the transfer of securities defined in Section 115AD of the Income Tax Act.

**Buy-back of Securities.** Before July 5, 2019, Indian listed companies were not subject to any tax on the buy-back of their shares. However, the shareholders will be taxed on any resulting gains. In case of resident shareholders in absence of any specific provision under the Income Tax Act, the Company is not required to deduct tax on the consideration payable to resident shareholders pursuant to the Buyback. In case non-resident FIIs, section 196D (2) of the Income Tax Act provides for specific exemption from withholding tax. Thus, no withholding of tax is required in case of consideration payable to FIIs. In case other than FIIs Indian companies would be required to deduct tax at source (including applicable surcharge and cess) on any sum chargeable to tax under section 195(1) of the Income Tax Act. Subject to regulations in this regard, wherever applicable and it is required to do so, tax at source (including applicable surcharge and education cess) shall be deducted at appropriate rates as per the Income Tax Act. In doing this, the Company will be guided by generally followed practices and make use of data available in its records except in cases where the non-resident shareholders provide a specific mandate in this regard. Since the buyback is through the recognized stock exchanges in India, the responsibility of discharge of the tax due on the gains (if any) is primarily on the non-resident shareholder given that practically it is very difficult to withhold taxes. It is therefore important for the non-resident shareholders to suitably compute such gains (if any) on this transaction and immediately pay taxes in India in consultation with their custodians, authorized dealers and/or tax advisors, as appropriate. Further in case of buyback of unlisted shares as per section 115QA of the Income Tax Act, domestic companies are subject to tax on buyback of unlisted shares. The statutory obligation of the non-resident shareholder to pay tax dues on gains (if any) is a separate and independent from the statutory obligation of the Company to withhold taxes. Correspondingly exemption to shareholder under section 10(34A) of the Income Tax Act is provided. For tax implications related to the buyback for non-resident shareholders refer to the document ‘tax implications related to the buyback for non-resident shareholders’ which is filed as an exhibit to the Annual Report on Form 20-F.

Further with effect from July 5, 2019, the Finance Act (No 2) 2019 has extended the buy-back Tax to shares of listed company under section 115QA of the Income Tax Act, domestic companies are subject to tax on buyback of listed shares. The statutory obligation of the non-resident shareholder to pay tax dues on gains (if any) is a separate and independent from the statutory obligation of the Company to withhold taxes. Correspondingly exemption to shareholder under section 10(34A) of the Income Tax Act is provided.

Further Taxation Law (Amendment) Act 2021 provided that the Tax on buy-back of shares would not apply to such buy-back of shares (being the shares listed on a recognized stock exchange), in respect of which public announcement has been made on or before the 5th day of July, 2019 in accordance with the provisions of the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018 made under the Securities and Exchange Board of India Act, 1992 (15 of 1992).

**Stamp Duty and Transfer Tax.** A transfer of ADSs is not subject to Indian stamp duty. A sale of equity shares in physical form by a non-resident holder will be subject to Indian stamp duty at the rate of 0.25% of the market value of the equity shares on the trade date, although customarily such tax is borne by the transferee. Shares must be traded in dematerialized form. The transfer of shares in dematerialized form is currently not subject to stamp duty.

As per Finance Act 2019 stamp duty shall be chargeable on transfer of shares in Dematerialized Form. Rate in such case shall be 0.015% of total market value of shares in case transfer is made on delivery basis and 0.003% in case transfer is made on non-delivery basis. This provision would be applicable from July 1, 2020.

---

**Goods and Service Tax.** Brokerage or commission paid to stockbrokers in connection with the sale or purchase of shares is subject to GST of 18% with effect from July 1, 2017. The stockbroker is responsible for collecting the GST from the shareholder and paying it to the relevant authority. In Erstwhile service tax regime, the service tax rate was 15% inclusive of all cess.

#### **Material U.S. Federal Income and Estate Tax Consequences**

The following is a summary of the material U.S. federal income and estate tax consequences that may be relevant with respect to the ownership and disposition of equity shares or ADSs and is for general information only. This summary addresses the U.S. federal income and estate tax considerations of holders that are U.S. holders. U.S. holders are beneficial holders of equity shares or ADSs who are individuals who are citizens or residents of the United States; corporations (or other entities treated as corporations for U.S. federal tax purposes) created in or under the laws of the United States or any state thereof (or the District of Columbia); estates, the income of which is subject to U.S. federal income taxation regardless of its source, and trusts for which a U.S. court exercises primary supervision and a U.S. person has the authority to control all substantial decisions or that has a valid election under applicable U.S. Treasury Regulations to be treated as a U.S. person. This summary is limited to U.S. holders who will hold equity shares or ADSs as capital assets for U.S. federal income tax purposes (generally for investment). In addition, this summary is limited to U.S. holders who are not resident in India for purposes of the Convention between the Government of the United States and the Government of the Republic of India for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income (the “Treaty”). If a partnership, including any entity treated as a partnership for U.S. federal income tax purposes, holds the equity shares or ADSs, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. A partner in a partnership holding equity shares or ADSs should consult his, her or its own tax advisor regarding the tax treatment of an investment in the equity shares or ADSs.

This summary does not address tax considerations applicable to holders that may be subject to special tax rules, such as banks, insurance companies, financial institutions, dealers in securities or currencies, tax-exempt entities, persons that will hold equity shares or ADSs as a position in a ‘straddle’ or as part of a ‘hedging’ or ‘conversion’ transaction for tax purposes, persons that have a ‘functional currency’ other than the U.S. dollar or holders of 10% or more, by voting power or value, of the shares of our company. This summary is based on the Internal Revenue Code of 1986, as amended and as in effect on the date of this Annual Report on Form 20-F and on U.S. Treasury Regulations in effect or, in some cases, proposed, as of the date of this Annual Report on Form 20-F, as well as judicial and administrative interpretations thereof available on or before such date, and is based in part on the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. All of the foregoing are subject to change, which change could apply retroactively, or the Internal Revenue Service may interpret existing authorities differently, and a court may sustain such an interpretation any of which could affect the tax consequences described below. This summary does not address U.S. federal tax laws other than income or estate tax or any U.S. state or local or non-U.S. tax laws.

**EACH INVESTOR OR PROSPECTIVE INVESTOR SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISOR WITH RESPECT TO THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES OF ACQUIRING, OWNING OR DISPOSING OF EQUITY SHARES OR ADSs.**

**Ownership of ADSs.** For U.S. federal income tax purposes, holders of ADSs will generally be treated as the holders of equity shares represented by such ADSs.

---

**Dividends.** Subject to the passive foreign investment company rules described below, the gross amount of any distributions of cash (or the fair market value of any other property) with respect to ADSs or equity shares (before reduction for any Indian withholding taxes) generally will be included in income by a U.S. holder as ordinary dividend income at the time of receipt, which in the case of a U.S. holder of ADSs generally should be the date of receipt by the Depositary, to the extent such distributions are made from the current or accumulated earnings and profits (as determined under U.S. federal income tax principles) of our company. We do not expect to keep earnings and profits in accordance with U.S. federal income tax principles; therefore, U.S. holders should expect that a distribution will generally be treated as a dividend. Such dividends will not be eligible for the dividends received deduction generally allowed to corporate U.S. holders. To the extent, if any, that the amount of any distribution by our company exceeds our company's current and accumulated earnings and profits (as determined under U.S. federal income tax principles) such excess will be treated first as a tax-free return of capital to the extent of the U.S. holder's tax basis in the equity shares or ADSs, and thereafter as capital gain. Subject to certain limitations, dividends paid to non-corporate U.S. holders, including individuals, may be eligible for a reduced rate of taxation if we are deemed to be a 'qualified foreign corporation' for U.S. federal income tax purposes. A qualified foreign corporation includes a foreign corporation if (1) its shares (or, according to legislative history, its ADSs) are readily tradable on an established securities market in the United States or (2) it is eligible for the benefits under a comprehensive income tax treaty with the United States. In addition, a corporation is not a qualified foreign corporation if it is or has been a passive foreign investment company (as discussed below) for the taxable year in which the dividend is paid or in the preceding taxable year. The ADSs are traded on the NYSE. Due to the absence of specific statutory provisions addressing ADSs, however, there can be no assurance that we are a qualified foreign corporation solely as a result of our listing on NYSE. In addition, it is unclear whether our shares will be considered readily tradeable for this purpose. Nonetheless, we may be eligible for benefits under the Treaty. Each U.S. holder should consult its own tax advisor regarding the treatment of dividends and such holder's eligibility for a reduced rate of taxation.

Subject to certain conditions and limitations, any Indian withholding tax imposed upon distributions paid to a U.S. holder with respect to ADSs or equity shares should be eligible for credit against the U.S. holder's federal income tax liability. Alternatively, a U.S. holder may claim a deduction for such amount, but only for a year in which a U.S. holder does not claim a U.S. foreign tax credit with respect to any foreign income taxes. The overall limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, distributions on ADSs or ordinary shares generally will be foreign source income for purposes of computing the U.S. foreign tax credit allowable to a U.S. holder. The rules governing U.S. foreign tax credits are very complex and each U.S. holder should consult its own tax advisor regarding the availability of foreign tax credits under such holder's particular circumstances.

If dividends are paid in Indian rupees, the amount of the dividend distribution included in the income of a U.S. holder will be in the U.S. dollar value of the payments made in Indian rupees, determined at a spot exchange rate between Indian rupees and U.S. dollars on the date such dividend is included in the income of the U.S. holder, regardless of whether the payment is in fact converted into U.S. dollars. Generally, gain or loss, if any, resulting from currency exchange fluctuations during the period from the date the dividend is paid to the date such payment is converted into U.S. dollars will be treated as U.S. source ordinary income or loss.

**Sale or exchange of equity shares or ADSs.** Subject to the passive foreign investment company rules described below, a U.S. holder generally will recognize gain or loss on the sale or exchange of equity shares or ADSs equal to the difference between the amount realized on such sale or exchange and the U.S. holder's adjusted tax basis in the equity shares or ADSs, as the case may be. Such gain or loss will be capital gain or loss and will be long-term capital gain or loss if the equity shares or ADSs, as the case may be, were held for more than one year. Furthermore, any such gain or loss recognized by a U.S. holder generally will be treated as U.S. source passive category income or loss for U.S. foreign tax credit purposes. The sale of equity shares or ADSs by a U.S. holder may be subject to certain taxes in India. See the section titled "Taxation - Indian Taxation - Taxation of Capital Gains" in Item 10 of this Annual Report for additional information. Due to limitations on the use of foreign tax credits, however, a U.S. holder may not be able to utilize such taxes as a credit against the U.S. holder's federal income tax liability resulting from such sale.

**Estate taxes.** An individual U.S. holder will have the value of the equity shares or ADSs held by such holder included in his or her gross estate for U.S. federal estate tax purposes. An individual holder who actually pays Indian estate tax with respect to the equity shares may, however, be entitled to credit the amount of such tax against his or her U.S. federal estate tax liability, subject to a number of conditions and limitations.

---

**Additional Tax on Investment Income.** U.S. holders that are individuals, estates or trusts and whose income exceeds certain thresholds are subject to a 3.8% tax on certain net investment income, including, among other things, dividends on, and capital gains from the sale or other taxable disposition of, equity shares or ADSs, subject to certain limitations and exceptions.

**Backup withholding tax and information reporting requirements.** Any dividends paid on, or proceeds from a sale of, equity shares or ADSs to or by a U.S. holder may be subject to U.S. information reporting, and a backup withholding tax may apply unless the holder is an exempt recipient or provides a U.S. taxpayer identification number and certifies under penalty of perjury that such number is correct and that such holder is not subject to backup withholding and otherwise complies with any applicable backup withholding requirements. Any amount withheld under the backup withholding rules will be allowed as a refund or credit against the holder's U.S. federal income tax liability, provided that the required information is timely furnished to the Internal Revenue Service.

Certain U.S. holders are required to report information with respect to their investment in equity shares or ADSs not held through a custodial account with a U.S. financial institution on Internal Revenue Service Form 8938, which must be attached to the U.S. holder's annual income tax return. Investors who fail to report the required information could become subject to substantial penalties. Each U.S. holder should consult his, her or its own tax advisor concerning its obligation to file Internal Revenue Service Form 8938.

**Passive foreign investment company.** A non-U.S. corporation generally will be classified as a passive foreign investment company for U.S. federal income tax purposes if either:

- 75% or more of its gross income for the taxable year is passive income; or
- on average for the taxable year, 50% or more of the value of its assets (as of the end of each quarter of its taxable year) is attributable to assets that produce or are held for the production of passive income.

We do not believe that we satisfy either of the tests for passive foreign investment company status for Fiscal 2019. Because this determination is made on an annual basis, however, no assurance can be given that we will not be considered a passive foreign investment company in future taxable years. If we were to be a passive foreign investment company for any taxable year, U.S. holders:

- may be required to pay an interest charge together with tax calculated at ordinary income rates on 'excess distributions,' as the term is defined in relevant provisions of the U.S. tax laws and on any gain on a sale or other disposition of equity shares;
- would be able to avoid the 'excess distribution' rules described above by making a "qualified electing fund election" (as the term is defined in relevant provisions of the U.S. tax laws) and including in their taxable income their pro-rata share of undistributed amounts of our income, however we do not plan to provide information necessary for U.S. holders to make a 'qualified electing fund' election; or
- may avoid the 'excess distribution' rules described above if the applicable equity shares or ADSs are 'marketable' by making a mark-to-market election, in which case the U.S. holder must mark-to-market the equity shares or ADSs each taxable year and recognize ordinary gain and, to the extent of prior ordinary gain, ordinary loss for the increase or decrease in market value for such taxable year. Our ADSs are traded on the NYSE and our equity shares are traded on the Indian stock exchanges. As such, a U.S. holder may be able to make a mark-to-market election with respect to our ADSs or equity shares; and
- will generally be subject to additional annual return requirements and may be required to file Internal Revenue Service Form 8621, unless certain exemptions apply.

**THE ABOVE SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE ANALYSIS OF ALL TAX CONSEQUENCES RELATING TO THE OWNERSHIP AND DISPOSITION OF EQUITY SHARES OR ADSs. YOU SHOULD CONSULT YOUR OWN TAX ADVISOR CONCERNING THE RELEVANT TAX CONSEQUENCES TO YOU BASED ON YOUR PARTICULAR SITUATION.**

#### **DOCUMENTS ON DISPLAY**

The SEC maintains a website at [www.sec.gov](http://www.sec.gov) that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.
